

Special Olympics Saskatchewan

Special Olympics Canada and Special Olympics Saskatchewan have specific policies regarding participation by individuals with Down Syndrome who have atlanto-axial instability. Because of this policy, Special Olympics Saskatchewan requests that all athletes with Down Syndrome be tested for atlanto-axial instability before participating in a Special Olympics program.

We request that you assess and/or x-ray _____ to confirm
athlete name
his/her status of atlanto-axial instability so that he/she may safely participate in sport.
