

Coach Development Model (CDM): Community-Initiation

- P/TSO – Provincial or Territorial Sport Organization.
- Coach is required to complete the SOC Community Workshop (1 day).
- Coach is required to participate in professional development experiences.
- Community coach may choose the option to participate in a sport-specific Community Workshop depending on athlete and program needs.
- If a coach chooses a sport-specific Community Sport Workshop the Chapter will guide the coach into an appropriate community context (Initiation or Ongoing Participation).
- Length of time for Community sport technical workshops varies from sport to sport.
- Please note; not all sports have an Evaluation option in the Community Stream, if there is no evaluation option, certification will not be obtainable (in that sport for the Community stream). The coach is therefore trained not certified.
