

Coach Development Model (CDM): Competition-Introduction

- P/TSO – Provincial or Territorial Sport Organization.
- Coach is required to complete the SOC Competition Workshop (2 days).
- Coach is required to complete a sport-specific workshop in the sport they coach (or a sport-specific Community Workshop if more appropriate for the program and athlete needs).
- * Sport-specific workshops are available in three contexts (Introduction, Development, High-Performance). SOC is working with each National Sport Organization to determine the most appropriate context and evaluation for SO Coaches. Chapter will guide the coach into an appropriate context.
- Coach is required to be evaluated for certification IF certification is outlined as necessary for Program delivery or Games eligibility.
- Coach is required to complete the Ethical Decision Making Module and be evaluated.
- Coach is required to participate in professional development experiences to maintain active certification, if certification is required for Program delivery or Games Eligibility.
